TESTIMONIALS FROM CLIENTS

“After being involved in a semi-truck accident, I needed a law team that could convince me that they were nothing short of being THE BEST in the area. Andy and Amy proved this to be true and I couldn’t be more grateful to have had them fighting not only for my damages, but also damages my family encountered as well. It is not only important to have individuals excelling for you legally, but it is also imperative to have people on your side that understand all the emotions, worries, physical pain, mental drain, etc... that come with being a victim of an accident; this team also proved to go above and beyond in these areas as well and were easy to build a wonderful rapport with. Highly recommend!!!!!!” – Kim M.

“For the first time I’ve ever had to use a lawyer, this firm was more than helpful. They were extremely transparent, and everything was done in a timely manner. They also were able to get me double than what I was expecting! Thank you to Andy Young and Amy and The Law Firm for Truck Safety. You guys are the best!” – Lucas G.

“Working with Andy was a pleasure and I’m grateful for all he was able to do for us! Great Attorney, would recommend him to anyone needing his services!” – Christina W.

“As a former client, I can totally confirm that Andy is absolutely trustworthy and an amazing, tenacious and gracious champion.” – Sarah Jo W.

“Andy was great to work with. I would definitely recommend!” – Nicole S.

“Working with Andy was a pleasure and I’m grateful for all he was able to do for us! Great Attorney. [I] would recommend him to anyone needing his services!” – Christina W.

“I just want to let you know how much I truly appreciate the hard work and dedication you gave to my case. We are very happy with all you’ve done for us! I would recommend you to anyone. Thanks for making a negative situation a positive one.” – Renee M.

“Through seven days in the courtroom, I watched as you sincerely gave a part of yourself on behalf of my mother’s memory and lawsuit to us as a family seeking justice. Your manner and openness regarding our case was not only

heartening but also demonstrated your true commitment to providing an opportunity for a day in court for those who feel justifiably wronged. You reached out beyond all expectations to consider our feelings, help us interpret the events of the court, and to make all the individuals involved feel a part of the process. I sincerely appreciate your acquaintance and your efforts in guiding us through the process.”—Dennis B.

“I set up an interview with Andy, he came over, and from that day on I trusted him and he became a friend.” – Tony S.

“Mr. Young, from the beginning, explained that the case was not going to be easy. He was the best I could get. He was prepared and got everything organized letter by letter, all the documents in order. I was really impressed.” – Teresa M.

“First meeting with Andy, he made me feel comfortable. When you look at an individual like Andy, he has a passion for helping people. I felt very comfortable knowing that Andy was the choice that I wanted to make. I did not want to seek or look at any other attorneys to help me with this situation. He tried everything necessary to settle the case so that it didn’t have to go to trial. He felt that based on the circumstances, we should take it to trial. He pretty much kept me protected and told me exactly what was going to happen at trial and some of the questions that might be thrown at me when I was asked questions. I guess that with everything that happened it was just telling the facts and things that occurred. You know what the jury was there to listen to all the facts and make a decision on their own. That is basically what Andy set me up to do.” – Anthony V.
